School / Academy Actions & Sanctions.....	21

Development / Monitoring / Review of this Policy

This Online Safety policy has been developed by Mr Canham/Mr Woods/ICT Technical Team

- Staff – including Teachers, Support Staff, Technical staff
- Governors
- Parents and Carers
- Community users

Consultation with the whole school / academy community has taken place through a range of formal and informal meetings.

Schedule for Development / Monitoring / Review

This online safety policy was approved by the Governing Body Curriculum Committee on: And by the Full Governing Body:	Autumn 2017
The implementation of this Online Safety policy will be monitored by the:	Headteacher/Online Safety Team/ Governors
Monitoring will take place at regular intervals:	Annually
The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats in online safety or incidents that have taken place. The next anticipated review date will be:	Autumn 2018
Should serious online safety incidents take place, the following external persons/agencies should be informed:	LA Safeguarding Officer, LADO, Police, Chair of Governors

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Monitoring logs of internet activity (including sites visited) / filtering
- Internal monitoring data for network activity

Scope of the Policy

This policy applies to all members of the Woodchurch High School community (including staff, students / pupils, volunteers, parents / carers, visitors, community users) who have access to and are users of Woodchurch High School ICT systems, both in and out of the school.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of students / pupils when they are off the Woodchurch High School site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

This is pertinent to incidents of cyber-bullying or other Online Safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

Woodchurch High School will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate Online Safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the *school*.

Governors / Board of Directors:

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors receiving regular information about online safety incidents and monitoring reports. A member of the Governing Body (TBC) has taken on the role of Online Safety Governor. The role of the Online Safety *Governor* will include:

- regular meetings with the Online Safety Co-ordinator / Officer/DSGL
- attendance at Online Safety Group meetings
- regular monitoring of online safety incident logs
- regular monitoring of filtering / change control logs
- reporting to relevant Governors meeting

Safeguarding Leads

- Ms Phillips (HT) Mr Canham (SDL) Mr Smith (DSDL) have a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety will be delegated to the *Online Safety Co-ordinator / Officer*.
- Ms Phillips (HT) Mr Canham (SDL) Mr Smith (DSDL) are aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff. (see flow chart on dealing with online safety incidents – included in a later section – “Responding to incidents of misuse” and relevant *Local Authority HR / other relevant body* disciplinary procedures). [Online Safety BOOST includes an ‘Incident Response Tool’ that outlines the steps \(and forms to complete\) any staff facing an issue, disclosure or report, need to follow. More information is available at: <https://boost.swgfl.org.uk/>](https://boost.swgfl.org.uk/)
- Ms Phillips (HT) Mr Canham (SDL) Mr Smith (DSDL) *are responsible for ensuring that the Online Safety team and other relevant staff receive suitable training to*

enable them to carry out their online safety roles and to train other colleagues, as relevant. *Online Safety BOOST includes access to unlimited online webinar training – further details are at <https://boost.swgfl.org.uk/>*

- A system is in place to allow for support of the ICT team members who carry out the internal online safety monitoring. Support is available in the first instance from Mr Canham (SDL) or Mr Smith (DSDL), they can then refer the team member to the school Nurse or Occupational Health as deemed appropriate.

Ms Phillips (HT) Mr Canham (SDL) Mr Smith (DSDL) will receive regular monitoring reports from the Online Safety team

Online Safety Team (Mr Canham, Mr Woods,)

- Mr Woods leads the Online Safety Group
- Mr Woods/ICT Technical Team takes day to day responsibility for online safety issues and they have a leading role in establishing and reviewing the school online safety policies / documents
- Mr Woods/ICT Technical team ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- Mr Woods/ICT Technical team provides training and advice for staff
- Mr Woods/ICT Technical team liaises with the Local Authority / relevant body
- Mr Woods/ICT Technical team liaises with school technical staff
- Mr Woods/ICT Technical team receives reports of online safety incidents and creates a log of incidents to inform future online safety developments, meets regularly with Online Safety Governor / Director to discuss current issues, review incident logs and filtering / change control logs
- attends relevant meeting / committee of Governors / Directors
- reports regularly to Senior Leadership Team

Online Safety Team/ Technical staff:

The Online Safety Team/Technical Staff is responsible for ensuring:

- that the **school's technical infrastructure is secure and is not open to misuse or malicious attack**
- that the **school meets required online safety technical requirements and any Local Authority Guidance that may apply.**
- that **users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed**
- that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- that the use of the network / internet / Learning Platform / remote access / email is regularly monitored in order that any misuse / attempted misuse can be reported to the Safeguarding Leads (MCA RPH ASM) for investigation / action / sanction
- that monitoring software / systems are implemented and updated as agreed in school policies

Teaching and Support Staff

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current *school* Online Safety Policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy / Agreement (AUP)
- they report any suspected misuse or problem to (MCA RPH ASM) for investigation / action / sanction
- all digital communications with students / pupils / parents / carers should be on a professional level and only carried out using official school systems.
- online safety issues are embedded in all aspects of the curriculum and other activities
- students / pupils understand and follow the Online Safety Policy and acceptable use policies
- students / pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned students / pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.

Designated Safeguarding Lead / Designated Person / Officer (MCA RPH ASM)

Should be trained in Online Safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- cyber-bullying

Online Safety Team (MCA SWO)

The Online Safety Group provides a consultative group that has wide representation from the Woodchurch High School community, with responsibility for issues regarding online safety and the monitoring the Online Safety Policy including the impact of initiatives. The group will also be responsible for regular reporting to the *Governing Body*.

Members of the Online Safety team will assist with:

- the production / review / monitoring of the school Online Safety Policy / documents.
- the production / review / monitoring of the school filtering policy (if the school chooses to have one) and requests for filtering changes.
- mapping and reviewing the online safety curricular provision – ensuring relevance, breadth and progression

- monitoring network / internet / incident logs
- consulting stakeholders – including parents / carers and the students / pupils about the online safety provision
- monitoring improvement actions identified through use of the 360 degree safe self-review tool

Students / Pupils:

- **are responsible for using the Woodchurch High School digital technology systems in accordance with the Pupil Acceptable Use Agreement**
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on cyber-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the Woodchurch High School Online Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website and information about national / local online safety campaigns / literature. Parents and carers will be encouraged to support the school / academy in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website / Learning Platform and on-line student / pupil records
- their children's personal devices in the school / academy (where this is allowed)

Community Users

Community Users who access school / academy systems / website / Learning Platform as part of the wider *school / academy* provision will be expected to sign a Community User AUA before being provided with access to school / academy systems.

Policy Statements

Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety is therefore an essential part of the school's online safety provision. Children and

young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- **A planned online safety curriculum should be provided as part of Computing / PHSE / other lessons and should be regularly revisited**
- **Key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial / pastoral activities**
- **Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.**
- **Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet**
- **Pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making.**
Pupils should be helped to understand the need for the pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – Parents / Carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's on-line behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond. The school will therefore seek to provide information and awareness to parents and carers through:

- *Curriculum activities*
- *Letters, newsletters, web site, Learning Platform*
- *Parents / Carers evenings / curriculum evenings*
- *High profile events*

- Reference to the relevant web sites / publications e.g. swgfl.org.uk www.saferinternet.org.uk/ <http://www.childnet.com/parents-and-carers>
- Education – The Wider Community

The school will provide opportunities for local community groups / members of the community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- Providing learning courses in use of new digital technologies, digital literacy and online safety
- *Online safety messages targeted towards grandparents and other relatives as well as parents.*
- *The school website will provide online safety information for the wider community*
- *Supporting community groups e.g. Early Years Settings, Childminders, youth / sports / voluntary groups to enhance their Online Safety provision* Education & Training – Staff / Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- **Online safety training will be made available to staff. This will be regularly updated and reinforced.**
- **All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the Woodchurch High School Online Safety Policy and Acceptable Use Agreements**
- The Online Safety Coordinator / Officer SWO will receive regular updates through attendance at external training events (eg from SWGfL / LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This Online Safety Policy and its updates will be presented to and discussed by staff in staff / team meetings / INSET days.
- The Online Safety Coordinator / Officer (or other nominated person) will provide advice / guidance / training to individuals as required.

Training – Governors / Directors

Governors / Directors should take part in online safety training / awareness sessions, with particular importance for those who are members of any subcommittee / group involved in technology / online safety / health and safety / safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation (e.g. SWGfL).
- Participation in school training / information sessions for staff or parents (this may include attendance at assemblies / lessons).

Technical – infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures

approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities

[A more detailed Technical Security Template Policy can be found in the appendix.](#)

- **Woodchurh High School technical systems will be managed in ways that ensure that the school meets recommended technical requirements There will be regular reviews and audits of the safety and security of school / academy technical systems**
- **Servers, wireless systems and cabling must be securely located and physical access restricted**
- **All users will have clearly defined access rights to school technical systems and devices.**
- **All users** (at KS3 and above) **will be provided with a username and secure password by** (Mr Clarke) *who will keep an up to date record of users and their usernames.* **Users are responsible for the security of their username and password.**
- The “master / administrator” passwords for the school / academy ICT system, used by the Network Manager (or other person) must also be available to the *Headteacher/Deputy* or other nominated senior leader and kept in a secure place (eg school safe)
- **Mr S Woods/Mr Clarke** are responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations (Inadequate licencing could cause the school to breach the Copyright Act which could result in fines or unexpected licensing costs)
- **Internet access is filtered for all users.** Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored.
- **Internet filtering should ensure that children are safe from terrorist and extremist material when accessing the internet.** Nb. additional duties for schools / academies under the Counter Terrorism and Securities Act 2015 which requires schools / academies to ensure that children are safe from terrorist and extremist material on the internet. (see appendix for information on “appropriate filtering”).
- **Woodchurh High School** *has provided enhanced / differentiated user-level filtering* (allowing different filtering levels for different ages / stages and different groups of users – staff / pupils / students etc)
- **Woodchurh High School** *technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement*
- Any actual or potential technical incident or any suspected security breach, will be reported in the first instance to the ICT Technical manager. This should normally be by use of the ICT Fault reporting Form, (if appropriate), but if time is thought to be of the essence than it may be reported verbally and followed up with formal reporting.
- Appropriate security measures are in place to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and

data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.

- Temporary or guest access to the network falls into two categories:

Category 1: If the temporary user is going to be working at Woodchurch High School for longer than one month a full login to the system will be setup this will allow login to the school network, e-mail and biometric access to printing and catering services.

Category 2: If the temporary user is going to be in school for less than 1 month then access to the guest wireless network can be arranged, this will allow users to connect their own devices to the filtered internet service. If a computing device is required, for example to give a presentation, a standard windows guest laptop can be loaned to them by ICT Support.

- Staff may use their laptops for personal as well as school work, however, it should only be used by the MOS to whom it has been issued. It is not appropriate to allow family members to use equipment that has been issued expressly for supporting teaching and learning.
- Staff may install executable files on their school provided laptop. Installation of programs onto desktop computers may only be performed by members of the ICT Support team.
- Staff may use currently use removable media on school computers. Any files containing personal data must be encrypted when saved to removable media. Named individuals* have encrypted removable Hard Disk Drives on which personal data may be stored. Students may use removable media, but are prevented by registry policies from running executables on the school network.

Mobile Technologies (including BYOD/BYOT)

<http://www.woodchurchhigh.com/docs/Policies/MobilePhoneAcceptableUsagePolicy.pdf>

Mobile technology devices may be school owned/provided or personally owned and might include: smartphone, tablet, notebook / laptop or other technology that usually has the capability of utilising the school's wireless network. The device then has access to the wider internet which may include the school's learning platform and other cloud based services such as email and data storage.

At Woodchurch pupils or staff cannot access the wireless internet connection but the above also applies to any personal connection to 3G or 4G connection.

All users should understand that the primary purpose of the use mobile / personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school policies including but not limited to the Safeguarding Policy, Behaviour Policy, Bullying Policy, Acceptable Use Policy, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school's Online Safety education programme.

- The school Acceptable Use Agreements for staff, pupils/students and parents/carers will give consideration to the use of mobile technologies
- The school allows:

	School Devices			Personal Devices		
	School owned for single user	School owned for multiple users	Authorised device ¹	Student owned	Staff owned	Visitor owned
Allowed in school	Yes	Yes	Yes	No	Yes	Yes
Full network access	Yes	Yes	Yes	No	No	No

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and students / pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

When using digital images, staff should inform and educate students / pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.

- **Written permission from parents or carers will be obtained before photographs of students / pupils are published on the school website / social media / local press**
- In accordance with guidance from the Information Commissioner’s Office, parents / carers are welcome to take videos and digital images of their children at school / academy events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone’s privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other *students / pupils* in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school academy policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school / academy equipment, the personal equipment of staff should not be used for such purposes.

- Care should be taken when taking digital / video images that students / pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school / academy into disrepute.
- Students / pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include students / pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Students' / Pupils' full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Student's / Pupil's work can only be published with the permission of the student / pupil and parents or carers.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998 which states that personal data must be:

- Fairly and lawfully processed
- Processed for limited purposes
- Adequate, relevant and not excessive
- Accurate
- Kept no longer than is necessary
- Processed in accordance with the data subject's rights
- Secure
- Only transferred to others with adequate protection.

The school must ensure that:

- **It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.**
- **Every effort will be made to ensure that data held is accurate, up to date and that inaccuracies are corrected without unnecessary delay.**
- **All personal data will be fairly obtained in accordance with the "Privacy Notice" and lawfully processed in accordance with the "Conditions for Processing".** (see Privacy Notice section in the appendix)
- **It has a Data Protection Policy (see appendix for template policy)**
- **It is registered as a Data Controller for the purposes of the Data Protection Act (DPA)**
- Ms Sue Rogers is the appointed Senior Information Risk Officer (SIRO), and the appointed Information Asset Owner (IAO).
- *MCA ASM JMA SRO
- Risk assessments are carried out
- It has clear and understood arrangements for the security, storage and transfer of personal data
- Data subjects have rights of access and there are clear procedures for this to be obtained

- There are clear and understood policies and routines for the deletion and disposal of data
- There is a policy for reporting, logging, managing and recovering from information risk incidents

Staff must ensure that they:

At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.

- **Use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data.**
- **Transfer data using encryption and secure password protected devices.**

When personal data is stored on any portable computer system, memory stick or any other removable media:

- **the data must be encrypted and password protected**
- the device must be password protected **the device must offer approved virus and malware checking software**
- **the data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete**

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

	<i>Staff & other adults</i>			<i>Students / Pupils</i>				
	Allowed	Allowed at certain times	Allowed for selected staff	Not allowed	Allowed	Allowed at certain times	Allowed with staff permission	Not allowed
Communication Technologies								
Mobile phones may be brought to the school	Y				Y			
Use of mobile phones in lessons		Y		N				
Use of mobile phones in social time		Y		N				
Taking photos on mobile phones / cameras	N			N				
Use of other mobile devices e.g. tablets, gaming devices		Y		N				
Use of personal email addresses in school , or on school / academy network	N			N				
Use of school / academy email for personal emails	N			N				
Use of messaging apps	N			N				
Use of social media	N			N				
Use of blogs	Y			N				

When using communication technologies the school / academy considers the following as good practice:

- **The official *school* email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored.** Staff and students / pupils should therefore use only the school email service to communicate with others when in school, or on school systems (e.g. by remote access).
- **Users must immediately report, to the Safeguarding Leads – in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication**
- **Any digital communication between staff and students / pupils or parents / carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content.** These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.

- Students / pupils should be taught about online safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity

All schools, academies and local authorities have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, cyberbully, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority liable to the injured party and make the perpetrator subject to disciplinary action. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Staff read and sign to agree to safer working practice guidance annually.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

Woodchurch High School staff should ensure that:

- No reference should be made in social media to students / pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the Woodchurch High School or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information
- Staff should not engage in any communication or connection with current pupils or those that have recently left.

When official school social media accounts are established there should be:

- A process for approval by senior leaders
- Clear processes for the administration and monitoring of these accounts – involving at least two members of staff
- A code of behaviour for users of the accounts, including
- Systems for reporting and dealing with abuse and misuse
- Understanding of how incidents may be dealt with under school / academy disciplinary procedures

Personal Use:

- Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school / academy or impacts on the school/ academy, it must be made clear that the member of staff is not communicating on behalf of the school / academy with an appropriate disclaimer. Such personal communications are within the scope of this policy
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken

Monitoring of Public Social Media

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
- The school should effectively respond to social media comments made by others according to a defined policy or process

The school's use of social media for professional purposes will be checked regularly by the senior risk officer and Online Safety Group to ensure compliance with the school policies.

Unsuitable / inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in / or outside the school when using Woodchurch High School equipment or systems. The school policy restricts usage as follows:

User Actions

		Acceptable	Acceptable at certain times	Acceptable for nominated users	Unacceptable	Unacceptable and illegal
Users shall not visit Internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to:	Child sexual abuse images –The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978					X
	Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003.					X
	Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008					X
	Criminally racist material in UK – to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986					X
	Pornography				X	
	Promotion of any kind of discrimination				X	
	threatening behaviour, including promotion of physical violence or mental harm				X	
	Promotion of extremism or terrorism				X	
	Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute				X	
Using school systems to run a private business				X		
Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school / academy				X		
Infringing copyright				X		
Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords)				X		

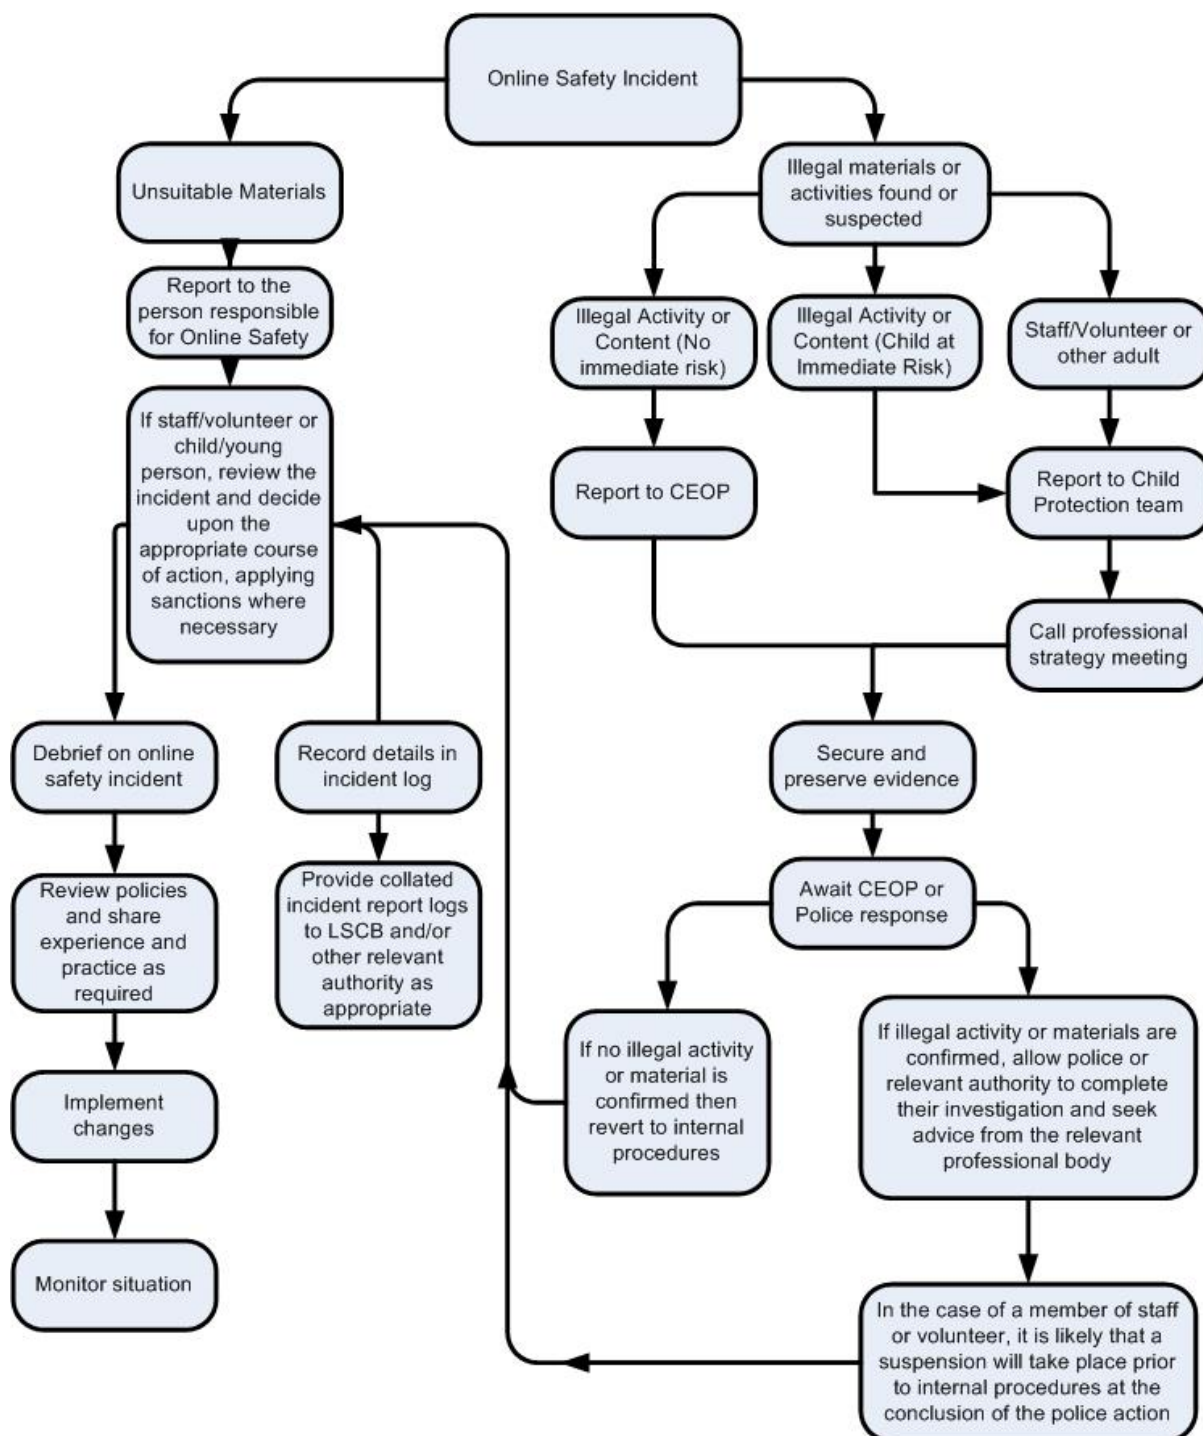

Creating or propagating computer viruses or other harmful files				X	
Unfair usage (downloading / uploading large files that hinders others in their use of the internet)				X	
On-line gaming (educational)	X

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above). Online Safety BOOST includes a comprehensive and interactive ‘Incident Management Tool’ that steps staff through how to respond, forms to complete and action to take when managing reported incidents (<https://boost.swgfl.org.uk/>)

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of the school / academy community will be responsible users of digital technologies, who understand and follow school / academy policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Decide whether to generate a CEOP report while internal investigation is taking place.
- Have more than one senior member of staff / volunteer involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse – see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority / Academy Group or national / local organisation (as relevant).
 - Police involvement and/or action
- **If content being reviewed includes images of Child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
 - incidents of ‘grooming’ behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - promotion of terrorism or extremism
 - other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the *school / academy* and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School / Academy Actions & Sanctions

It is more likely that the school / academy will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures as follows: (the school / academy will need to agree upon its own responses and place the ticks in the relevant columns. They may also wish to add additional text to the column(s) on the left to clarify issues. Schools / academies have found it useful to use the charts below at staff meetings / training sessions).

Actions / Sanctions

Students / Pupils Incidents	Refer to class teacher / tutor	Refer to Head of Department / Year / other	Refer to Headteacher / Principal	Refer to Police	Refer to technical support staff for action re filtering / security etc.	Inform parents / carers	Removal of network / internet access rights	Warning	Further sanction eg detention / exclusion
Deliberately accessing or trying to access material that could be considered illegal (see list in earlier section on unsuitable / inappropriate activities).	X	X	X	X	X	X	X	X	X
Unauthorised use of non-educational sites during lessons	X	X			X			X	X
Unauthorised / inappropriate use of mobile phone / digital camera / other mobile device	X	X		X	X		X	X	X
Unauthorised / inappropriate use of social media / messaging apps / personal email	X	X			X		X	X	X
Unauthorised downloading or uploading of files	X	X			X		X	X	
Allowing others to access school / academy network by sharing username and passwords	X	X	X		X			X	
Attempting to access or accessing the school / academy network, using another student's / pupil's account	X	X	X		X			X	X
Attempting to access or accessing the school / academy network, using the account of a member of staff	X	X	X		X	X	X	X	X
Corrupting or destroying the data of other users	X	X	X		X	X	X	X	X
Sending an email, text or message that is regarded as offensive, harassment or of a bullying nature	X	X	X		X	X	X	X	X
Actions which could bring the school / academy into disrepute or breach the integrity of the ethos of the school	X	X	X		X	X	X	X	X

Using proxy sites or other means to subvert the school's / academy's filtering system	X	X	X	X	X	X	X	X	X
Accidentally accessing offensive or pornographic material and failing to report the incident	X	X			X				X
Deliberately accessing or trying to access offensive or pornographic material	X	X	X		X	X	X	X	X

Actions / Sanctions

Staff Incidents

	Refer to line manager	Refer to Headteacher / Principal	Refer to Local Authority / HR	Refer to Police	Refer to Technical Support Staff for action re filtering etc.	Warning	Suspension	Disciplinary action
